

Notes

- White text on black background is harsh on the eyes, maybe consider using a slightly lighter black/darker gray
 - On the pages that are fully black break them up into multiple colored backgrounds
- Image gallery
 - Variation in size of images
 - Click through images with arrows
- Add more decorative text on the pages
 - Roboto is considered very similar to helvetica so for decorative aspects (and if you want to add certain animations that you can't with helvetica) use this font
- Variations page
 - Use images instead since font isn't available
- Home page
 - Make the heading bigger
